ptartling fact stares us in the face. Since Sir Robert Peel's ministry—I think in 1845—who commenced the work of reform with a bold and vigorous hand, the taxes have been removed from over two hundred different articles, leaving the products and articles of commerce that are now taxed—excise and customs—scarcely a dezen in number. And yet, during that time the annual taxes of the United Kingdom have increased in amount more than \$120.000,000 a, year, or from £60.000,000 to very nearly £80,000,000 annually. The great secret of taxation as connected with national and commercial prosperity is this. Any community with large resources will bear an enormous amount of taxation, provided those articles, resources and branches of industry only are taxed that produce the least inconvenience to the people. Is a post office—being a government monoply, where all competition is out of the question—a legitimate source of taxation? Is it not rather the necessary labrication, by which the wheels of industry are kept bright, and the machinery running with pleasure and profil? It is had economy to save a can of lubricating oil worth a dime, and thereby destroy an anxie worth a ten pound note. I am, sir, your obedient servant, PLINY MILES.

FINANCIAL AND COMMERCIAL.

WEDNESDAY, Jan 22-6 P. M.

The steamer Canada, from Boston to-day, took out \$20,000 and 8,000 sovereigns in specie. There s no alteration in call loans or paper. The specuative movement in gold continues. It rose to 102% at the second board, with sales of upwards of \$150,000. It continued to advance after the adjournment, and some private transactions were made late in the day at as high as 103½. The foreign exchanges remain firm, the leading bankers refusing to sell sterling under 1121/4; but nothing has been done as yet for Saturday's steamer.

foreign exchanges remain firm, the leading bankers refusing to sell sterring under 112%; but nothing has been done as yet for Saturday's steamer.

The Committee of Ways and Means reported to the House of Representatives this morning a bill authorizing the Secretary of the Treasury to issue one hundred and fifty millions of demand notes (the fifty millions already issued being included in this amount), which are to be made a legal tender for public and private debts, and also empowering him to issue six per cent bonds, redeemable in twenty years, to the extent of five hundred millions of dollars. The provisions of the bill were approved of by Mr. Chase this morning, and it was made the special order in the House for Toesday next.

The stock market opened with a downward tendency this morning, particularly in governments, which fell to 89 for the registered, and to 30 for the coupon sizes of 1861. As the call proceeded, however, now buyers made their appearance, under the influence of whose purchases prices soon rallied, most of the leading railroad shares advancing ½ a ½ per cent over the lowest points touched yeskerday afternoon. At the afternoon session, when it was known that the Committee of Ways and Means had reported in favor of an issue of demand Treasury notes, the upward movement became more decided, and a further advance of ¼ a ½ per cent over the morning's prices took place, the market closing firm. Railroad bonds continue to improve. Galena and Chicago firsts rose to 103 to-day, Michigan Central firsts to 38, Hudson River seconds extended to 103½, Milwakee and Prairied Chien firsts to 38, Hudson River seconds extended to 103½, Milwakee and Prairied Chien firsts to 38, the defined of the special continued to 103½, Milwakee and Prairied Chien firsts to 38, the define on the last transactions.
